

SEO & Digital Lead Generation Plan

Objective

Generate **qualified B2B leads** through organic search, paid advertising, content marketing, and social media by optimizing the website and running targeted campaigns in **India, USA, and Saudi Arabia**.

1. On-Page SEO

Keyword Strategy

- Conduct keyword research focusing on **high-intent and problem-solving keywords**.
- Map **primary and secondary keywords** to each page.
- Focus on keywords related to retail marketing automation, customer engagement, and retention.

Page Optimization

- Optimize **title tags** with primary keywords.
- Write **compelling meta descriptions** for higher CTR.
- Ensure proper **header hierarchy (H1, H2, H3)**.
- Improve **content relevance using semantic keywords**.
- Add **internal linking** between blogs, product pages, and landing pages.

Content Optimization

- Improve readability and structure.
- Include **clear CTAs** such as demo requests or consultations.

Image Optimization

- Compress images for faster loading.
- Add descriptive **ALT text** with keywords.

Landing Page Optimization

Create and optimize landing pages for:

- Product solutions
- Industry solutions (retail, restaurants)
- Demo booking
- Lead magnets

2. Technical SEO (Issue Resolution)

Website Performance

- Improve **page load speed**
- Optimize **Core Web Vitals**
- Ensure full **mobile responsiveness**

Indexing & Crawling

- Fix crawl errors and indexing issues
- Update **XML sitemap**
- Optimize **robots.txt**

Use tools like
Google Search Console

Website Health Fixes

- Fix broken links
- Remove duplicate pages
- Implement canonical tags
- Ensure SSL security

3. Off-Page SEO

Backlink Building

Acquire high-quality backlinks through:

- Guest blogging
- Industry websites
- Marketing publications
- Retail technology blogs

4. Content Marketing Strategy

Blog Publishing

Publish **2–5 SEO-optimized blogs per month** targeting informational and transactional keywords.

Content categories include:

Problem-solving articles

Example: improving repeat customers

Educational guides

Example: customer retention strategies

Comparison articles

Example: best retail marketing platforms

Industry insights

Example: trends in omnichannel marketing

5. Social Media Marketing

Primary focus platform:

LinkedIn

Additional platforms:

Instagram

Posting Strategy

Post **2–3 times per week**.

Content types:

- Industry insights
- Retail marketing tips
- Customer retention strategies
- Product features
- Case studies
- Blog promotions
- Infographic carousels

Social Media Objective

- Increase brand visibility
- Drive traffic to blogs and landing pages
- Generate inbound leads

6. Paid Advertising Strategy

Paid campaigns will accelerate lead generation through:

Google Ads

Meta Ads Manager

Campaign types include:

- Search campaigns
- Display campaigns
- Lead generation ads
- Retargeting campaigns

7. Regional Advertising Plan

Separate campaigns will be created for each region to improve targeting and conversion.

India Campaign

Language: English

Target audience:

- Retail businesses
- Restaurant chains
- E-commerce brands

Focus keywords:

- retail marketing automation India
- customer engagement software India
- retail CRM solutions

Landing pages will highlight **India-specific use cases**.

USA Campaign

Focus on competitive SaaS keywords.

Target audience:

- Retail brands
- Marketing leaders
- E-commerce companies

Keywords example:

- retail marketing automation software
- omnichannel retail marketing platform
- customer retention software

Landing pages will emphasize **ROI and automation capabilities**.

Saudi Arabia Campaign

Language: Arabic.

Campaign focus:

- Retail chains
- Restaurants
- Shopping malls

Ads and landing pages will be **localized in Arabic** to increase relevance and engagement.

8. Conversion Rate Optimization

To maximize lead generation, the website will be optimized by:

- Improving landing page copy
- Adding strong CTA buttons
- Simplifying lead forms
- Adding testimonials and case studies
- Including demo booking options

Tools used:

Google Analytics

Hotjar

9. Newsletter

- Weekly newsletters
- Industry insights
- Product updates
- Case studies
- Promotional offers

Tools can be used:

- HubSpot
- Mailchimp

10. Performance Tracking

Campaign performance will be monitored using:

Google Analytics

Google Search Console

Key metrics tracked:

- Organic traffic growth
- Keyword rankings
- Lead conversions
- Cost per lead from ads
- Best performing content

11. Execution Timeline

Month 1

- Keyword research
- Technical SEO fixes
- Website optimization

- Launch blog publishing

Month 2

- Start backlink outreach
- Launch social media campaigns
- Start Google and Meta ad campaigns

Month 3

- Optimize ads for performance
- Expand content production
- Implement retargeting campaigns
- Improve conversion rate optimization
